26th edition of International Engineering & Technology Fair (IETF) is the flagship event of the CII. Gathering wind beneath its wings and adding more feathers to its cap since its inception in 1975, IETF has transformed into a platform that focuses India and the Indian engineering industry towards newer avenues.

---

*As an internationally reputed B2B event, it opens the floodgates towards comprehensive global associations and events that celebrate the idea of India as an innovative technology hub with immense potential to lead the world.*

---

# India Advantage

India's aim towards becoming the 3rd largest economy by 2030 envisages some focused growth drivers & Private sector will have a major role to play.

India is successfully moving towards digital economy with its robust digital infrastructure.

With emerging technology, India has the opportunity to be at the forefront and lead the revolution. The revival of electronics manufacturing in the last five years is one of the most remarkable factors.

Inspired by India's remarkable leadership in G20, Geo-politics & disruptive technology is set to impact all sectors and areas of business.

AatmaNirbhar Bharat in engineering and technology strives to create a self-reliant ecosystem where India can leverage its strengths in innovation, human capital, and natural resources to achieve technological excellence and economic prosperity.

# IETF

## 26 EPIC EDITIONS

Participation from across the Globe

The IETF 2025 will showcase innovations through focused and concurrent shows in select industry sectors – **Artificial Intelligence (AI), Capital Machinery, Digital Gaming, Fluid power, Industrial Automation, Robotics & Electronics, Modern Logistics Solutions, Metal and Metallurgy, Water & Waste Management, Net Zero Products & Solutions and Consumer Durables & Electronics.**

# BUILDING AATMANIRBHAR BHARAT DRIVEN BY INNOVATION & TECHNOLOGY

# IEFT Shows

India Industrial Automation Robotics and Electronics Expo 2025, where innovation converges with industry to shape the future of automation and robotics. As a premier platform for showcasing cutting-edge technologies, this expo brings together leading experts, businesses, and enthusiasts from across the globe to explore the latest advancements in industrial automation, robotics, and electronics.

Logistics 2025, an ideal platform for companies involved in Logistics, Supply Chain, Transportation, Shipping & Port, Material Handling, Warehousing & Storage Equipment, Consultancy and IT related business to showcase on their products & service, latest trends and Technologies to the industry and to strengthen their brand awareness to the stakeholders.

Metal & Metallurgy Expo 2025 is an excellent platform for the Indian and international companies to showcase their state-of-the-art products and services in and metallurgical industry. India's metal and metallurgy sector has experienced significant growth due to industrialization, urbanization, and infrastructure development. The country is a top producer of metals such as steel, aluminium, copper, zinc, nickel and lead, contributing to both domestic consumption and exports

Fluid Power Expo 2025 aims to provide a linkage between diverse segments of the Fluid power Industry. The expo is a platform to showcase the technological capabilities and innovation in the Fluid Power Industry.

Water & Waste Expo 2025 aims at providing an excellent international platform, to showcase the full range of environmental technologies including water, sewage, refuse, recycling, and energy conservation management in India, focusing on basic to highly sophisticated machinery and environmental solutions from domestic and international exhibitors.

ietfindia.in

Consumer Durables and Electronics Fair 2025 is a one-of-a-kind opportunity for businesses to showcase their cutting-edge products, connect with industry leaders and explore the latest technological innovations in the consumer electronics sector.

Net Zero Products & Solutions Expo aims to promote smart energy development and efficient utilization, and help operators accelerate carbon neutrality. In the exhibition, the digital development of energy and smart energy cutting-edge technologies will be showcased and successful solutions shared to promote sustainable joint-development of the industry and drive digital transformation.

# IETF 2025 Concurrent Shows

The AI India Show 2025 will feature top-level content and discuss AI strategies, explore technology advancements as well as introduce the latest innovations in the Artificial Intelligence sector, driving forward business and beyond.

The India Gaming Show 2025, an International Gaming, Animation & Infotainment Event will feature a technology showcase by large companies, animation, gamification, gaming zones, Internet of Things, start-ups, skills and skill development, Digital India, Make in India, along with consumer sections, e-sports, cosplay, and stage events. The India Gaming Show will showcase the ever-increasing significance of interactive, mobile, and social gaming on a global scale.

Health Tech India is an ideal platform for all key stakeholders associated with healthcare sector like doctors, specialist, public health officials, policy makers, medical tourism, medical insurance, hospital administrations, procurement professionals, medical institutions, medical students and medical colleges to witness the latest innovation and cutting-edge technology in the healthcare product and services, medical devices and technology, diagnostic, lab, pharma, consumables and wellness.

# Glimpses of 2023 Edition

**400+**  
Exhibitors

**20000+**  
Visitors

Participation from  
**45+** Countries  
(Exhibitors & Delegates)

**2000+**  
Conference Delegates

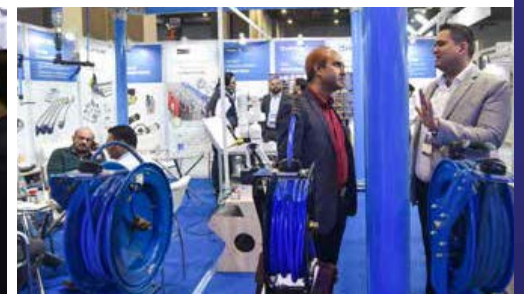

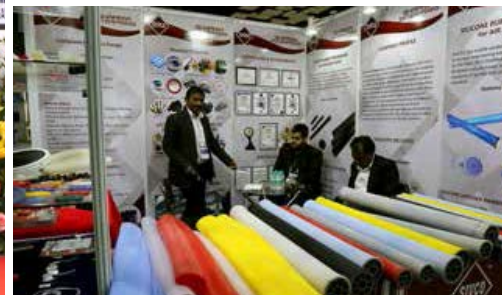

**100+**  
Startups

**20+**  
Sector Specific Conferences

## Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 286 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

As India strategizes for the next 25 years to India@100, Indian industry must scale the competitiveness ladder to drive growth. It must also internalize the tenets of sustainability and climate action and accelerate its globalisation journey for leadership in a changing world. The role played by Indian industry will be central to the country's progress and success as a nation. CII, with the Theme for 2023-24 as 'Towards a Competitive and Sustainable India@100: Growth, Livelihood, Globalisation, Building Trust' has prioritized 6 action themes that will catalyze the journey of the country towards the vision of India@100.

With 65 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 350 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.
