## International Engineering & Technology Fair 2009 (IETF)

IETF (International Engineering & Technology Fair) organised biennially since 1975, is the flagship event of the Confederation of Indian Industry (CII). The forthcoming fair - the 18th edition of IETF is spread over an area of about 25,000 sqm. and structured as a comprehensive B2B event, segmented into well-defined technological sections of the engineering & manufacturing industry. This edition will include 5 Focussed Business Fairs concurrently and a number of Country Pavilions as well as participation from over 500 companies from around 25 countries. The fair will also host a series of international seminars, conferences on select industry sectors. The fair received enthusiastic support and help from the Govt of India as well as from the State Level Participants Andhra Pradesh, Delhi, Karnataka and Orissa.

### A New Venue

With IETF 2009 (18th International Engineering & Technology Fair), change is the only constant. After 17 successful shows in Delhi since its debut in 1975, the show has been relocated. Join us at the Bangalore International Exhibition Centre (BIEC), a most modern exhibition cum conference centre at Bengaluru, India.

Partner Country

South Africa

We're building even more possibilities

## Partner Country - South Africa

The partner country for the 18th edition of International Engineering & Technology Fair is South Africa. This is the second time that South Africa will be participating as Partner Country in IETF. The first time was in 2005 which was very helpful in generating awareness about South Africa as the producer of engineering and technology products. About 45 companies/institutions from South Africa participated in the IETF 2005. Success can be gauged simply from the trade figures which doubled up in three years from US\$ 3.1 billion in 2004-05 to US\$ 6.2 billion in 2007-08. The Department of Trade and Industry, South Africa, has identified India as a natural trade partner and have adopted aggressive marketing initiatives to tap into the large and growing Indian market and also to seek Foreign Direct Investment from India.

South Africa's participation at IETF 2009 will witness displays of latest technologies and products from over 60 exhibitors from the country, covering a variety of the country's technological advancements. From the electro-technical ICT, capital equipment, mining and engineering services, financial services, agro-processing sectors to contemporary South African arts and crafts will be on display. South African participation at IETF will also include investment seminars, business-2-business meetings, company and sector presentations and more.

## Guest Country - Japan

Japan

After showcasing as a Partner Country twice in 1997 & 2007, Japan returns as Guest Country. Discover not just its rich industry & technology but also the vast culture and glorious heritage. Japan has been a regular participant at IETF and is participating for the third time with National Pavilion. The main focus this time around shall be on Energy & Environment and an impressive display of Japanese Products & technologies shall also be on offer. A number of official & business delegations from Japan are expected at the show.

## IETF Concurrent Shows

The next generation of business advancement

### Applications

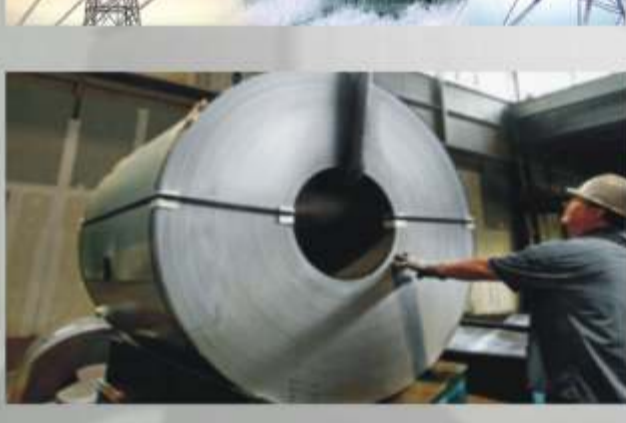

Automobiles, Building Automation, Cement, Manufacturing, Oil & Gas, Power, Railway, Retail Automation, Robotics, Safety & Security, Steel & Metallurgy, Urban Transportation Infrastructure, Waste Water Treatment

## Even nature plays an important role in your business growth

### Exhibitors

Energy Conservation, Environment, Green Energy, Non-Renewable Energy, Energy Transmission & Distribution, Pollution Control, Energy Equipment & Generators, Renewable Energy, Water Management, Waste Management

## The right tools to expand your business

### Exhibitors

Machinery & Machine Tools Industry and Related Sector, Air Technology, Information Technology, Electrical and Equipment, Wood Working Machines, Garage Tools & Equipment, Packaging & Processing Machines, Printing Machines, Glass Technology

## AUTO PARTS PAVILION - The parts that make a business

### Exhibitors

Auto Electronics, Accessories, Alternate Fuel Conversion Kits, Audio and Infotainment Equipment, Auto Garage and Service Equipment, Auto Insurance and Finance, Automotive Component/Parts, Batteries and Auto Electricals, Car Care Products, Fuel and Lubricants, Logistics, Paints, Tubes, Tyres, Upholstery

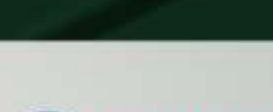

## Safeguard your business from market risks

### Exhibitors

Bullet-proof Vehicles, Central Monitoring Stations (CMS), Disaster Management, X-Ray Baggage Machines, Human Body Scanners, Simulators, CCTV, Traffic System & Management and many more

## Shine in the international business arena

Witness the latest products and technologies covering a series of industry sectors from a number of overseas participants from around 15 countries - Austria, China, Germany, Israel, Korea, Poland, Russia, Spain, UAE, UK, Latin American Countries etc.

## The perfect recipe for your business development

- Equipment
- Housekeeping
- Engineering & Technology
