# HEALTH TECH INDIA 2025

5<sup>th</sup> International Exhibition and Conference

22-24 February 2025, Pragati Maidan, New Delhi

THE LEADING  
EXHIBITION AND  
CONFERENCE  
FOR THE HEALTH CARE  
INDUSTRY

# OVERVIEW

Significant progress in the sector through government schemes and Indian industry approach.

Several steps have been taken to improve healthcare facilities across the country, especially in rural areas

Government schemes like Ayushman Bharat have been launched to provide health insurance coverage to millions of disadvantaged families.

Government has focused on building and upgrading healthcare infrastructure, increasing the number of medical colleges and hospitals, and providing training and incentives to healthcare professionals.

Improving access to quality healthcare services for the population, and the sector continues to grow and evolve to meet the healthcare needs of the country.

Indian healthcare market is predicted to grow to 110 trillion rupees by 2027, with a 17.44% market share held by the digital healthcare sector.

## HEALTH TECH INDIA 2025

The 5th edition of HealthTech India is set to take place at Pragati Maidan, New Delhi, India, showcasing the latest innovations in the healthcare industry. The event aims to provide a platform for healthcare professionals, technology companies, and researchers to come together and explore the advancements in HealthTech. With India's rapidly growing healthcare sector, this exhibition will highlight the transformative role that technology plays in improving healthcare delivery and patient outcomes. Attendees can expect to see cutting-edge medical devices, digital health solutions, telemedicine platforms, and much more.

HealthTech India 2025 serves as an excellent opportunity for networking, knowledge sharing, and fostering collaborations in the HealthTech space for both the countries. It provides a unique platform for healthcare professionals, doctors, government procurement agencies, and international visitors to explore the latest innovations in the field and leverage them for improved patient care and operational efficiency. The exhibition showcases a wide range of cutting-edge technologies, products, and services that are transforming the healthcare landscape in India. From telemedicine solutions to wearable devices, artificial intelligence applications to robotic-assisted surgeries, it covers all aspects of healthtech innovation.

# BENEFITS AT A GLANCE

- ▶ Opportunity to showcase and demonstrate products and services to a targeted audience of industry professionals and decision-makers.
- ▶ Informative seminars and workshops by industry leaders.
- ▶ Potential business and partnership opportunities.
- ▶ Chance to gain media coverage and exposure for products and services.
- ▶ Knowledge sharing and learning through conference sessions, panel discussions, and workshops.
- ▶ Access to market intelligence and research on the healthcare technology sector in India.
- ▶ Networking opportunities with potential clients, partners, and investors.
- ▶ Insights into the latest trends and innovations in health technology.
- ▶ Opportunities to participate in pitch sessions and competitions for startups and innovators.
- ▶ International visitors can benchmark their own healthcare systems against India's healthtech advancements. This allows them to identify areas for improvement and implement successful strategies utilized by Indian healthcare providers.
- ▶ Access to a diverse range of exhibitors and industry leaders in the healthcare technology sector.
- ▶ Procurement agencies can evaluate a wide range of healthtech products before making purchasing decisions.
- ▶ Platform to establish and strengthen brand presence in the healthcare technology market.
- ▶ Interaction with industry experts and gaining insights.

- Health Tourism Operators
- Dealers / Distributors / Stockist
- Government Agencies and official
- Directors of HR and nursing departments
- Architects and Planners
- Research and Development
- Deans of medical colleges / Institutes

## H INDIA 2023

Exhibition and Conference

Vision for India 2047

2023 | New Delhi

# GLIMPSES FROM THE PAST

**Health Tech India 2023**, held concurrently with **IETF**, emerged as an ideal platform to attract all key stakeholders in the healthcare sector, such as doctors, specialists, public health officials, policymakers, medical tourism, medical insurance, hospital administrations, procurement professionals, medical institutions, medical students, and medical colleges, to witness the latest innovation and cutting-edge technology in healthcare product and services innovations.

**The event** gave a significant boost to the New India Vision for 2047, which aims to create a conducive environment for medical device manufacturing in the country over the next 25 years, with a focus on innovation for advanced technology and providing training and capacity-building programs. The fourth edition of the event provided a platform for all stakeholders to showcase the strength of the health tech sector, while also addressing the challenges and opportunities that lie ahead in this field.

# Health Tech 2023 Conference

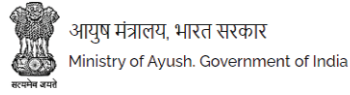

The Indian healthcare sector is constantly changing as new technology enters the market. Technologies are assisting in addressing traditional difficulties in the healthcare sector, and the future of healthcare delivery is shifting from reactive treatment to preventive care. Thus, the availability, accessibility, and use of modern digital tools by healthcare practitioners and specialists are assisting the Indian healthcare sector in moving forward. Together with initiatives such as Med Tech India, the industry is poised to reach new heights and assist the government in overcoming all barriers to provide quality healthcare to not only India but the entire world, which aligns with India's G20 motto of 'Vasudhaiva Kutumbkam'- the world is one family.

As India is focused on developing medtech industry, and various schemes have been launched to reduce import dependency and make products in India, **Health Tech India 2023 Conference** held at Pragati Maidan, New Delhi; emerged as a convergence platform for the leaders from the Indian healthtech sector to discuss and deliberate on their vision for 2047 and chart out actions for the growth of the sector, which is the fourth largest market for medical devices in Asia and is among the top 20 in the world.

## Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 286 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

As India strategizes for the next 25 years to India@100, Indian industry must scale the competitiveness ladder to drive growth. It must also internalize the tenets of sustainability and climate action and accelerate its globalisation journey for leadership in a changing world. The role played by Indian industry will be central to the country's progress and success as a nation. CII, with the Theme for 2023-24 as 'Towards a Competitive and Sustainable India@100: Growth, Livelihood, Globalisation, Building Trust' has prioritized 6 action themes that will catalyze the journey of the country towards the vision of India@100.

With 65 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 350 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.
